PROJECTS

RICCARDOGABELLINI.IT | GATSBY.JS, REACT, GRAPHQL

2023

- To enhance my visibility among my network of connections and to acquire new skills in technologies such as React, Gatsby, and server-side rendering, I created **riccardogabellini.it**, a portfolio website that showcases my experiences, competencies, and my story.

HOME MADE APP | DOCKER, ANGULAR, SPRINGBOOT

2021

- Developed a useful WebApp to manage my expenses at home. It was built with attention to best practices of web applications (for both the backend and the frontend). It's public, free and visible at this link: **thetwopandas.duckdns.org:8443** . The entire application is Dockerized inside a raspberry pi 3 in my house :)
